

SUMMARY AND CONCLUSION

One of the oldest handicrafts used as a tool by man to express his interest, sentiments and emotion is needle craft. There were different techniques of needle craft. The simplest and favorite were patch work, appliqué work and quilting. Generations of enthusiastic beginners have been create unique items and to preserve precious scraps of fabric. Patch work, appliqué work and quilting provide a variety of treatment, in which a craft man can express her skills and love for decoration. Inspired from designing and patch work, appliqué work and quilting, the researcher took up research in “Designing and Construction of kitchen range using Patch work, Appliqué work and Quilting” with following aims and objectives. **(Add about your project)**
