

# Skirt

A **skirt** is the lower part of a dress/gown or a separate outer garment that covers a person from the waist downwards. ... **Skirts** of thin or clingy fabrics are often worn with slips to make the material of the **skirt** drape better and for modesty.

## TYPES OF SKIRTS – ACCORDING TO LENGTH

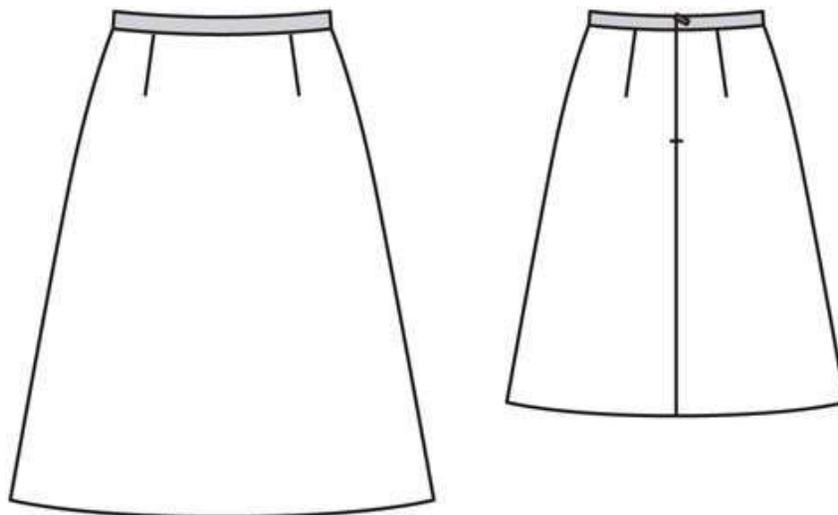

**SKIRT (Length style)**

## TYPES OF SKIRTS – ACCORDING TO STYLE

### 1. A line Skirt

An A line skirt is thought to be universally flattering in comparison to the other styles of skirts. As visible by the name, an A line skirts falls in the shape of an A. It draws attention to the waist as it's tight at the waist and then falls loosely over the legs. While styling this skirt, keep in mind that it looks ideal with a tight top.

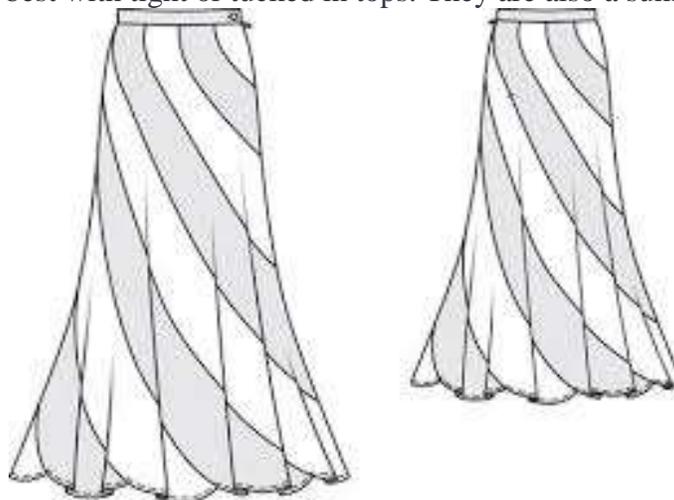

## 2. Pencil Skirt

Also known as a tube skirt, this type of skirt is straight and tight at the knees. They are often synonymous with office and formal wear. Due to their figure hugging nature, these style of skirts are ideal for slim women. Their simplistic cut makes them perfect for pairing up with any type of blouses.

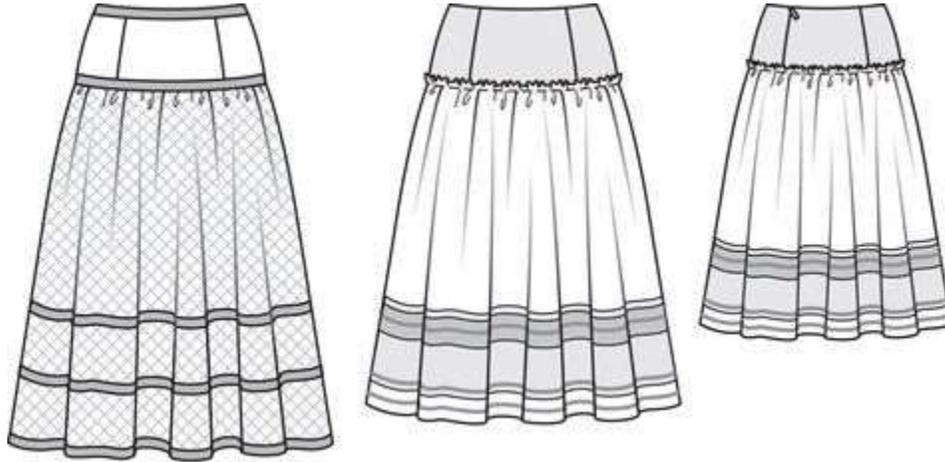

## 3. Maxi Skirts

Named after its length, a maxi skirt is loose and falls from the waist to ankles. Maxi skirts are loose fitting and flowy. They are mostly made from lightweight fabrics and are often considered to be informal. These type of skirts look very flattering on tall women. Due to their flowy and long shape, they look best with tight or tucked in tops. They are also a summer staple.

#### 4. Layered Skirt

Otherwise known as a tiered skirt, this style of skirt has multiple layers of fabric attached to the hemline. These are often knee length and are great for adding volume to the outfit. These style of skirts are unique since depending on the fabric and layering, each pair gives a different look.

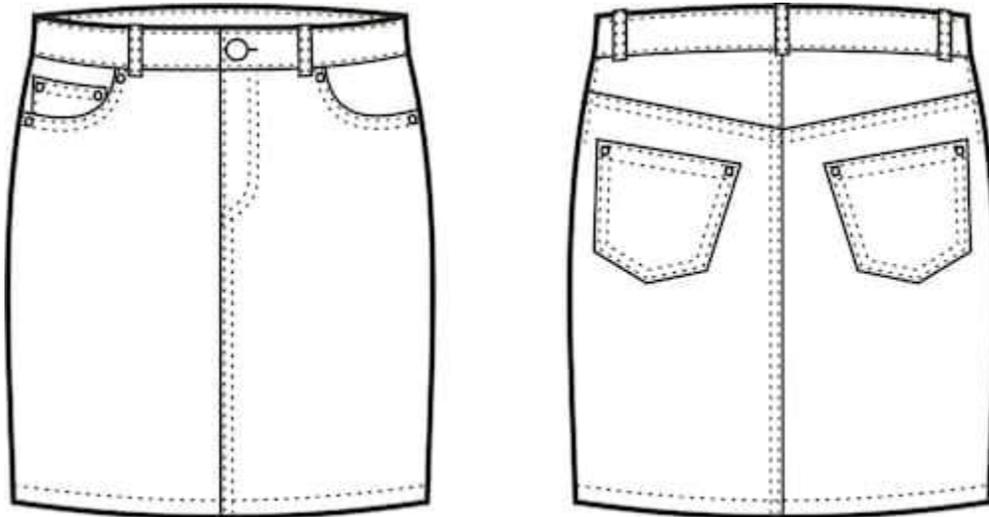

#### 5. Tulle Skirt

Previously only associated with ballerinas, this style of skirts has finally paved its way into mainstream fashion. It is best for formal and party wear. For those in love with the princess look, this skirt is perfect. For an elegant look, this skirt can be paired with a form fitted blouse or cashmere sweater but for a less formal look it can be worn with an artsy t shirt.

## 6. Mini Skirt

A mini skirt is found in a variety of fabrics such as denim and cotton. It is clearly a very short skirt and is often more casual and informal than fancy. This type of skirt is ideal for daily wear and can be styled with anything from a t-shirt to an oversized sweater.

## 8. Pleated Skirts

This style of skirts are perfect for women on the go as they require no ironing. They are embodied with vertical pleats throughout the length of the skirt.. The ideal fabric for these skirts is either organza, silk or satin.

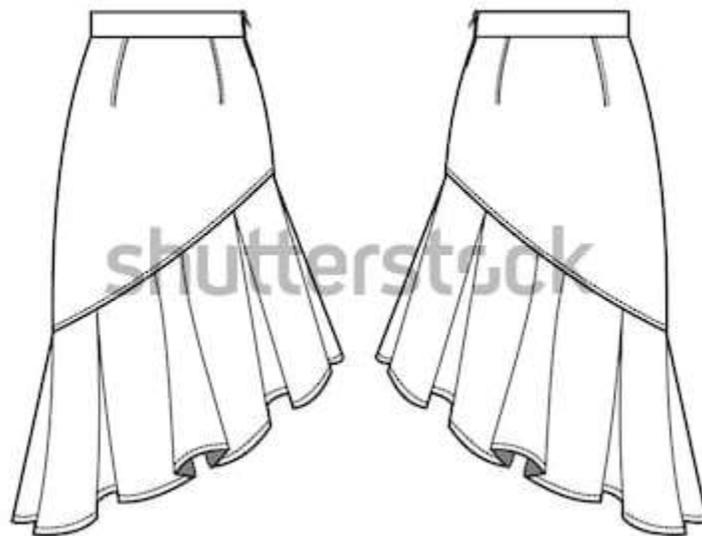

## 9. Ball Gown Skirt

Not to be confused with a maxi skirt, a ball gown skirt balloons out from the waist and gives the effect of a ball gown dress. They are the epitome of elegance and are mostly till the ankles.

## 10. Asymmetrical Skirt

Most popular for casual and beach wear, this type of skirt is made up of fabric varying in length. They are also known as high-low skirts. They are mostly worn with button down shirts or crop tops.
