

Fashion Illustration (Graphic look)

1. Find letters or words on magazine or news paper.
2. Check for pleasing placement and stick to the croqui and photocopy.
3. Paint the base color of your choice.

4. This time, Instead of black shading, for more realistic look, Use darker shade of base color (in my case, grey on shoulder and sleeves and darker green on dress)
5. Highlight in white pencil. (if you cant find good results with pencil, go for white paint or gel pen)
6. Outline in dark color instead of black. (this shading gives more realistic and neat look, yet i'm more comfortable with black outline).
