# ALEXANDER

I chose to research the Alexander McQueen design as I discovered the Spring Summer 2010 collection and I was inspired by many of the designs. He includes both blue and orange in some designs so I will have inspiration from the way he uses these

# McQUEEN

Colors in my samples are mostly a lot of dramatic eye-popping which I love as most of them are tailored which is something I would like to investigate more into throughout the project and I have portrayed that in some of my design ideas.
